

Investors: As previously noted, two Prudential policies involving the same viator have matured. The death occurred shortly before the receiver was appointed. Notice and receipt of the funds occurred after appointment.

The Receiver has filed a motion with the Court to determine the status of those funds, i.e. are they assets of the Receivership estate or subject to distribution.

A copy of this motion and notice will be mailed to you within the week. Those involved in the policies will receive certified mail notice. The remaining investors will receive regular mail. The notice contains important information. Please read it carefully and consult counsel if you think that appropriate. I will answer questions to the extent possible.

Andrew Storar, Examiner
